3D-Printed Parts

PE - Photo-etched parts

www.facebook.com/specialhobby/

Ohnuté 3D tisky narovnejte ponořením do horké vody, srovnejte je a zchladte studenou vodou. K lepení použít kyanoakrylátové lepidlo! Kontaktní plochy doporučujeme před lepením odmastit. Různé drátky a tyčinky nejsou přiloženy.

Bent 3D printed parts: put them into hot water, straighten them and cool them in cold water. For best result use cyanoacrylate glue! Ungreasing contact areas is recommended before gluing. Wires and rods not included.

Special Hobby also offers 1/35 3D printed sets P35012 MG 42 German WWII Machine Gun (Early Variant) and P35014 M1 Bazooka
