PUR (polyuretan parts)

PP (photo-etched parts)

K lepení použít kyanoakrylátové lepidlo!
For best gluing results use cyanoacrylate glue!

Díly ohnuté popř. pokroucené vlivem teplotních změn a stárnutí materiálu, mohou být narovnány do požadovaného tvaru pomocí proudu teplé vody nebo vzduchu (fén na vlasy).

Parts slightly distorted and bended owing to temperature changes or due to material ageing can be straightened to requested shape by hot water or hot air jet. (hair dryer) This process can be repeated till result is entirely satisfactory.

Kontaktní plochy doporučujeme odmastit před lepením / *Before gluing degreasing is recommended.*

NEW ITEMS SETS 1/72 SETS FOR GERM. AIRCRAFT WWII 1/72
