PUR - Polyurethane parts

CP - Clear parts

PP - Photoetch. FP - Film parts

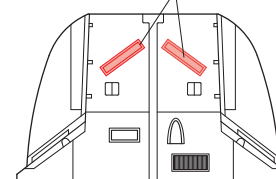

Decals

STEP 1

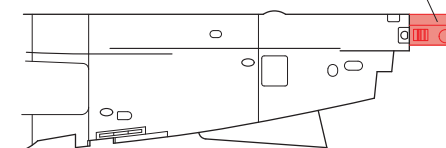

Kit part K5

Fill / Zatmelit

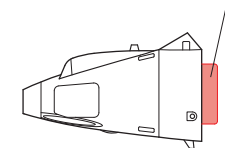

Kit parts A1, B1

Remove / Odstranit

Kit parts V3, V4

Remove / Odstranit

Díly ohnuté popř. pokroucené vlivem teplotních změn a stárnutí materiálu, mohou být narovnány do požadovaného tvaru pomocí proudu teplé vody nebo vzduchu (fén na vlasy). Různé drátky a tyčky nejsou přiloženy. Kontaktní plochy doporučujeme před lepením odmastit.

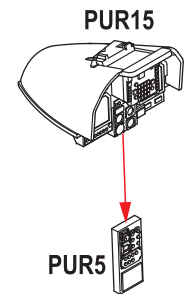

Parts slightly distorted and bent owing to temperature changes or due to material ageing can be straightened to requested shape by hot water or hot air jet (hair dryer). This process can be repeated till result is entirely satisfactory. Wires and rods not included. It is recommended to remove grease from contact areas

K lepení použít kyanoakrylátové lepidlo / For best gluing results use cyanoacrylate glue!

Note:
The cockpit colours are identical with the one seater version. Please follow the instructions for the Hasegawa kit.
Zbarvení cockpitů je shodné s jednomístnou verzí. Držte se návodu modelu Hasegawa.

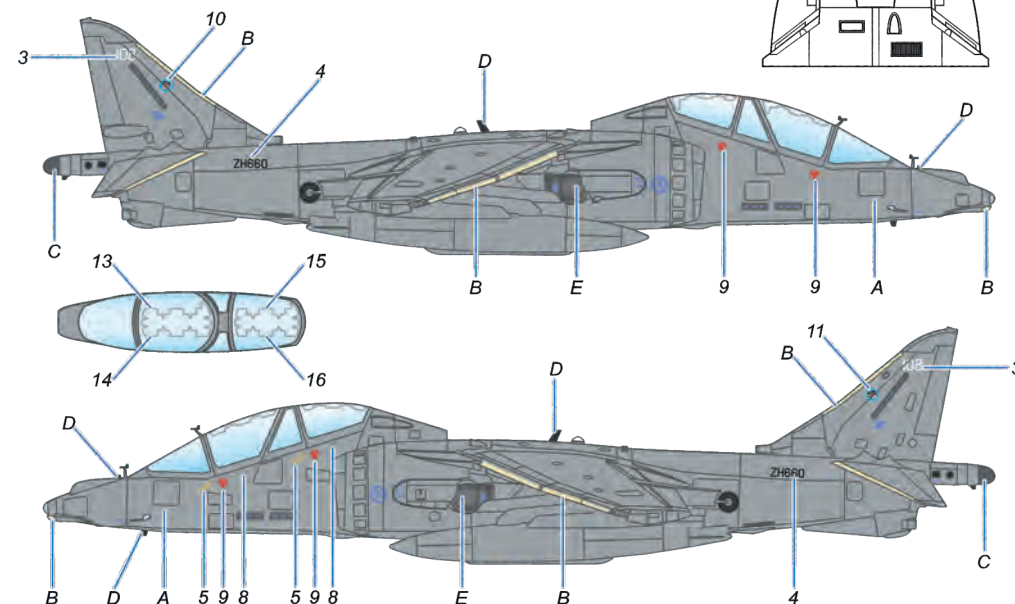

Harrier T.12, 105/ZH657, 800.NAS, FAA, 2010

Note:
Decals marked in purple in the drawings are from the Hasegawa kit.
Obtisky ve schématech naznačené fialovou barvou použijte z aršíku stavebnice Hasegawa.
