

F48 355 Tempest Pilot (seated)

1/48

**PUR - Polyurethane
parts**

2 3 4

Díly ohnuté, popř. pokroucené vlivem teplotních změn a stárnutí materiálu, mohou být narovnány do požadovaného tvaru pomocí proudu teplé vody nebo vzduchu (fén na vlasy).

Parts slightly distorted and bent owing to temperature changes or due to material aging can be straightened to the requested shape by hot water or hot air jet. (hair dryer)

This process can be repeated till the result is entirely satisfactory.

Pro lepení použijte cyanoakrylátové lepidlo!

For optimum result use cyanoacrylate glue!

Kontaktní plochy doporučujeme před lepením odmastit.

Ungreasing the contact areas is recommended before gluing.
